MasterWorks International Earns Coveted HP Authorized Parts Reseller Designation

[Houston, Texas, November 6, 2009] MasterWorks International (MasterWorks) is proud to announce their new status as a Hewlett-Packard (HP) Authorized Parts Reseller (APR).

MasterWorks' designation as an HP Authorized Parts Reseller gives the company the ability to stock and sell parts for all HP systems, as well as for their full line of peripherals. As one of only a handful of companies in the country with this ability, the APR status puts MasterWorks in an elite group of HP partners.

Achieving HP Authorized Parts Reseller status highlights not only MasterWorks' commitment to being the best, most comprehensive source for HP parts, but also underscores the relationship MasterWorks and HP have built through the years.

"The selection of our company as an Authorized Parts Reseller is the result of a long-term relationship with HP as a trusted business partner, and is an endorsement on their behalf of the business processes and emphasis on customer care we have developed here at MasterWorks," noted MasterWorks' Chairman and CEO, Bob Munn.

"The Authorized Parts Reseller designation enables MasterWorks to better serve our growing markets and customer base as we continue to become a one-stop shop for all things HP. Our expanding business relationship with HP continues to show how MasterWorks protects the HP brand in the parts aftermarket," noted VP business Development, Edward Higgins.

Besides the new title, MasterWorks is also a recognized leading HP Remarketing Distributor selling End-Of Life, Factory Refurbished, and As-Is products to HP's tens of thousands of HP Authorized Resellers across the United States. MasterWorks also continues to grow its end-user base as a HP Authorized Reseller with our eight HP Certified Service Technicians providing configure-to-order and integration services.

About MasterWorks International:

MasterWorks builds upon its 18 year experience working with HP and other top technology manufacturers to continue to provide high quality products to our customers at a competitive price.

MasterWorks has an industry-wide reputation for delivering proven results to OEM's in managing returns, excess and obsolete inventory, increasing reverse supply chain recovery dollars and overall corporate brand/channel protection.

Based in Houston, Texas, MasterWorks has a proven track record for providing fully outsourced turnkey solutions for reverse supply chain management and supporting ODM/OEM's as a third-party solution outsource partner. Those services include: credit issuance and returns management; excess, demo and returns sort for redeployment or rerouting; remanufacturing and refurbishment; warehousing and order fulfillment; sales processes and liquidation efforts; and asset recovery and e-waste management.

MasterWorks' services help customers to increase recovery dollars, reduce reverse supply chain costs, protect channel and brand, capture data, and manage supply chain in regard to ebbs and flows of returns management and scalability. Our knowledgeable, dedicated account managers partner with customers to locate the right products to meet their specific needs. MasterWorks' pre-tested, extensive in stock inventory ensures exceptional quality products and real same day shipping.
